The ‘Proposed Development’ considered for the purposes of this EIAR consists of six separate components of the proposed development of the Applicant’s landholding in Moygaddy Co. Meath which forms part of a larger project, the first phase of which will require six separate planning applications. One of the planning applications will be submitted to An Bord Pleanála under the Strategic Housing Development planning process, three of the planning applications will be submitted to Meath County Council and two will be submitted to Kildare County Council. It is considered prudent to consider all six applications together under one EIAR, due to the proximity, construction timelines and shared infrastructure between the developments and it is intended that each of these applications will be accompanied by the same EIAR and NIS.

For clarity, the Strategic Employment Zone (Site A), the Healthcare Facilities (Site B), the Strategic Housing Development (Site C), the Maynooth Outer Orbital Road (MOOR), the Kildare Bridge and the Moyglare Bridge applications have all been assessed individually, as well as cumulatively with one and other (the Proposed Development) and in combination with other projects, including the planned future applications within the Moygaddy Masterplan. To aid each competent authority in reading and understanding the project details and potential environmental effects of the individual applications, the EIAR describes and completes an impact assessment including the setting out of the proposed mitigation measures of each component that will be the subject of the individual consent. This has meant a significant amount of repetition however this is unavoidable and is intended solely to aid each competent authority to focus on the application that has been brought to them for consideration.

While the EIAR is structured in such a way as to make it more readable for each competent authority and allow them focus on the part of the project being brought forward to them for consent, the entirety of the application documentation is available and must be used to complete the EIA and AA for each consent decision. As always, an EIA and AA must be completed by each competent authority using all of the information available to them within the application documentation.

The Engineering reports that accompany this application are appended to the EIAR and therefore are not submitted as standalone documents. These reports include the following:

- Engineering Services Report included as Appendix 4-8 of the EIAR which includes:
 - Appendix D: Irish Water Confirmation of Feasibility
- Traffic Impact Assessment included as Appendix 13-1 of the EIAR (O'Connor Sutton Cronin Consulting Engineers)
- Statement of Compliance with DMURS included as Appendix 4-7 of the EIAR (O'Connor Sutton Cronin Consulting Engineers)
- Mobility Management Plan included as Appendix 4-1 of the EIAR (O'Connor Sutton Cronin Consulting Engineers)
- Quality Audit included as Appendix 13-2 of the EIAR (Bruton Consulting Engineers)
- Construction & Environmental Management Plan included as Appendix 4-3 of the EIAR (O'Connor Sutton Cronin Consulting Engineers)
- Construction & Demolition Waste Management Plan included as Appendix 4-4 of the EIAR (O'Connor Sutton Cronin Consulting Engineers)
